

Volume stockpile grond

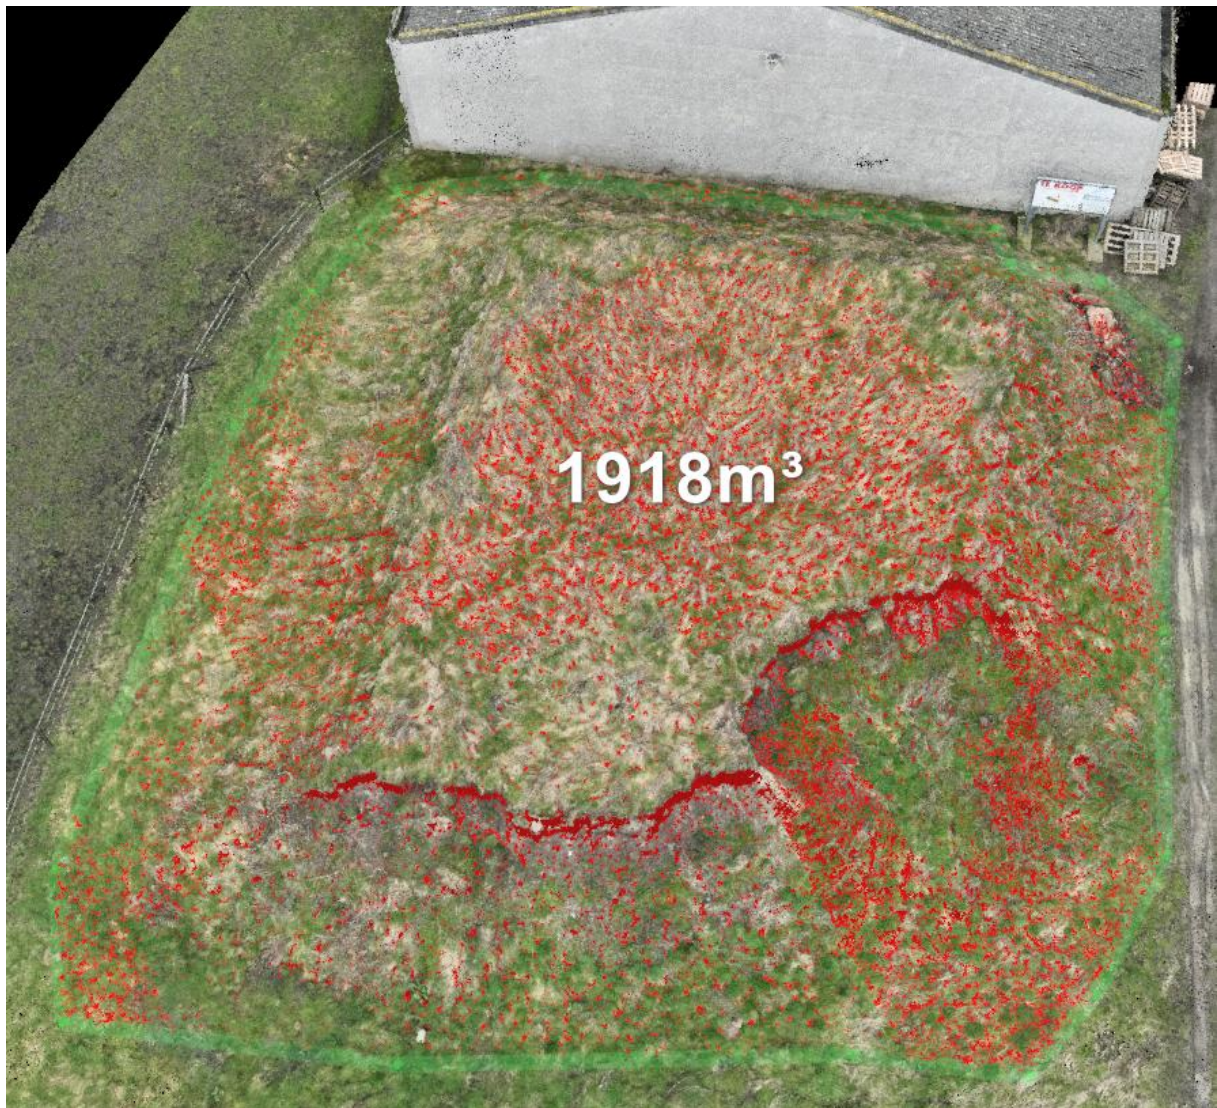

Ingemeten met DJI Mavic 3^E en grondpunten met Emlid Reach RS3

Verwerking met Pix4D mapper

RTK provider: FLEPOS Coördinatenstelsel: Lambert Belge 72/HBG18 height

Volume grond binnen groene afbakening

Basishoogte berekening stockpile: 7,95m

Volume base: 7,95m

	Volume stockpile vanaf basishoogte 7,95m
Terrain 3D Area:	1004.11 m ²
Cut Volume:	1917.79 ± 8.76 m ³

- **Terrain 3D Area [units²]:** Area that is defined by the DSM included in the volume's base.
- **Cut Volume [units³]:** Volume that is above the volume base. The volume is measured between the volume's base and the surface defined by the DSM.
